

From <http://www.facebook.com/SeattleFire>. Following is SFD's advice about calling 911 during the 2020 coronavirus crisis.

[Seattle Fire Department](#)

[March 18 at 6:15 PM](#) ·

We respond to all life-threatening emergencies. Don't feel ashamed if you have symptoms (fever, cough or difficulty breathing) of COVID-19. Call 911 if your symptoms are life-threatening: we will help you. Please be transparent with the dispatcher about your symptoms so we can arrive with the appropriate protective equipment. Continue to consult with your primary care physician if your symptoms are minor. [#HereToServe](#) [#COVID19Seattle](#)
